

# Leaf 001 Side Table

Design Gordon Guillaumier

Technical Information

Imagine this collection as a leaf that falls from the trees and becomes a perfect accessorize to the garden furniture; LEAF is a collection of outdoor side tables also designed to be combined with each others, creating a harmonious game of tops in two heights and of different hues, of "natural inspiration". The variety of colours available for the tops in gres, matt or glazed, allows many different combinations which wink at the fabrics and finishes palette offered by RODA for the outdoor design, that enriches year after year.
