MAMBA LIGHT

Designed by Victor Vasilev

A hanging shelf-desk, able to adapt to all spaces thanks to its essentiality.

Mamba Light combines practicality and aesthetics by responding to the needs of the home office and those of the traditional desk. The reduced size and the wide colour range allow Mamba Light to fit into different environments, from the bedroom, to the living room, to the children's bedroom.

At the entrance it is a versatile complement, which can be used to display objects or as a practical shelf.

Today, Mamba Light is enriched with two new finishes in Canaletto walnut and black stained ash that convey a natural sensation of warmth and cosiness. The Canaletto walnut, smooth and with a gentle touch, makes the environment welcoming, while the black stained ash, more textured, connotes the environments with elegance and refinement. Two finishes that fit into the most classic contexts, but also into the most contemporary ones, characterising them with great personality.

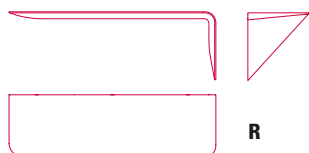

SHELF

The shelf is in medium-density fibreboard with varying thicknesses and moulded into a curve.

Finish: matt lacquered white, anthracite grey, avio blue. New finishes: Canaletto walnut and black ash.

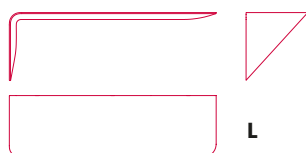

It is attached to the wall with a bracket.
