

# Brick 002 Extendable Table

Design Gordon Guillaumier

Technical Information

The name of the collection, BRICK, already states its design: the teak table top is divided into pieces, in a geometrically perfect succession of joints, thus creating space for a great conviviality, while the legs, lightly rotated inwards, invite to sit around. This is BRICK, a design furniture that fills the space thanks to the generous dimensions, the personality of the pattern and the strong presence of a unique and precious material such as natural teak. The patio table BRICK is extendable and ideal for outdoor covered areas.

## TECHNICAL INFORMATION

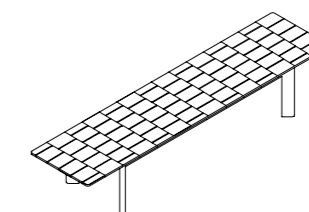

**DESCRIPTION**  
Extendable dining table for outdoor use.

**STRUCTURE**  
Teak (legs and top)

**WEIGHT**  
Structure 175 kg

**STORAGE COVER**  
Available.

**DIMENSION**  
L 270 × P 100 × H 75 cm  
Open L 420 cm  
W 106" ½ × D 39" ¾ × H 29" ½  
Open W 165" ½
